#### Status Update - April 2017

At the end March 2017, a total of 2,390 residential properties have been delivered for social housing providers comprising of 2,054 completed properties with a further 336 that have been contracted where completion work is on-going. The following diagram summarises the overall progress.

To date demand has been confirmed by the local authorities for 2,780 of the properties that NAMA has identified as potentially available. Local authorities have confirmed that 2,423 of the properties are considered unsuitable by reference to sustainable planning and housing policy or are located in areas with no demand. A further 1,744 properties have been sold or privately let by the owners or receivers.

Of 2,054 properties completed to date, 71 houses and 279 apartments were delivered across six separate developments with mix of social and private rented homes. The properties were purchased or leased by three AHBs with assistance from the Department through the social housing current expenditure programme for 220 properties with the remaining 130 rented on the private market, thus ensuring sustainable mixed-tenure developments. These projects in Carlow, Cork, Dublin and Galway provide a good illustration of sustainable housing policy in practice; a policy which aims to provide a balanced sustainable mix between social and private housing within a community.
